The VS code for the style.css and is as follow:

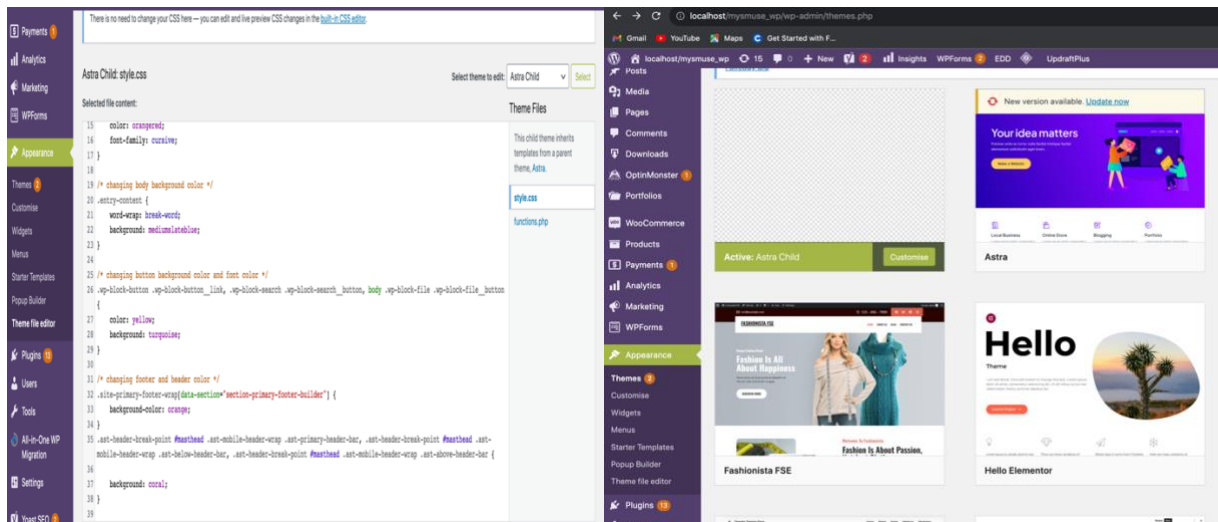

The image shows a side-by-side comparison of two code files in a VS Code editor. The left pane displays 'style.css' with various CSS rules for the Astra Child Theme, including theme metadata, font and color settings for headers, body, buttons, and footers. The right pane displays 'functions.php' with a PHP function 'enqueue_parent_styles()' that enqueues the parent theme's styles.

```
